

## SAFETY DATA SHEET CARLUBE DOT 4 ESP BRAKE FLUID

SECTION 1: Identification of the substance/mixture and of the company/undertaking	
1.1. Product identifier	
Product name	CARLUBE DOT 4 ESP BRAKE FLUID
Product number	BFE050
1.2. Relevant identified uses	of the substance or mixture and uses advised against
Identified uses	Brake fluid.
1.3. Details of the supplier of	the safety data sheet
Supplier	TETROSYL LIMITED Bury Lancashire England BL9 7NY 0161 764 5981 0161 797 5899 info@tetrosyl.com
Manufacturer	TETROSYL LIMITED Bury Lancashire England BL9 7NY 0161 764 5981 0161 797 5899 info@tetrosyl.com
1.4. Emergency telephone nu	Imber
Emergency telephone	+44 (0)161 764 5981
SECTION 2: Hazards identification	
2.1. Classification of the subs	tance or mixture
Classification (EC 1272/2008)	$\underline{\mathbf{D}}$
Physical hazards	Not Classified
Health hazards	Eye Irrit. 2 - H319 Repr. 2 - H361d
Environmental hazards	Not Classified
2.2. Label elements	
Pictogram	
♦	
Signal word	Warning

Signal word

Warning

Hazard statements	H319 Causes serious eye irritation. H361d Suspected of damaging the unborn child.
Precautionary statements	<ul> <li>P101 If medical advice is needed, have product container or label at hand.</li> <li>P102 Keep out of reach of children.</li> <li>P201 Obtain special instructions before use.</li> <li>P202 Do not handle until all safety precautions have been read and understood.</li> <li>P264 Wash contaminated skin thoroughly after handling.</li> <li>P280 Wear protective gloves/ protective clothing/ eye protection/ face protection.</li> <li>P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.</li> <li>P308+P313 IF exposed or concerned: Get medical advice/ attention.</li> <li>P337+P313 If eye irritation persists: Get medical advice/ attention.</li> <li>P405 Store locked up.</li> <li>P501 Dispose of contents/ container in accordance with national regulations.</li> </ul>
Contains	2-(2-METHOXYETHOXY)ETHANOL

2.3. Other hazards

SECTION 3: Composition/information on ingredients

3.2. Mixtures

2-[2-(2-BUTOXYETHOXY)ETHOXY]ETHANOL		10-<30%
CAS number: 143-22-6	EC number: 205-592-6	REACH registration number: 01- 2119531322-53
<b>Classification</b> Eye Dam. 1 - H318		
DIETHYLENE GLYCOL		10-<30%
CAS number: 111-46-6	EC number: 203-872-2	REACH registration number: 01- 2119457857-21
Classification Acute Tox. 4 - H302		
2-(2-METHOXYETHOXY)ETHANOL		2.5-<5.0%
CAS number: 111-77-3	EC number: 203-906-6	REACH registration number: 01- 2119475100-52
Classification Repr. 2 - H361d		
2-(2-BUTOXYETHOXY)ETHANOL		2.5-<5.0%
CAS number: 112-34-5	EC number: 203-961-6	REACH registration number: 01- 2119475104-44
Classification		
Eye Irrit. 2 - H319		

The full text for all hazard statements is displayed in Section 16.

## **SECTION 4: First aid measures**

## 4.1. Description of first aid measures

General information	Effects may be delayed. Keep affected person under observation. For breathing difficulties, oxygen may be necessary. If breathing stops, provide artificial respiration. Get medical attention. Remove affected person from source of contamination. Place unconscious person on the side in the recovery position and ensure breathing can take place. Never give anything by mouth to an unconscious person.		
Inhalation	Remove affected person from source of contamination. Get medical attention if any discomfort continues. For breathing difficulties, oxygen may be necessary. If breathing stops, provide artificial respiration. If spray/mist has been inhaled, proceed as follows. Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. If throat irritation or coughing persists, proceed as follows. Get medical attention. Show this Safety Data Sheet to the medical personnel.		
Ingestion	Get medical attention immediately. Never give anything by mouth to an unconscious person. Try to induce vomiting. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Rinse mouth thoroughly with water. Give plenty of water to drink. Get medical attention if a large quantity has been ingested. Show this Safety Data Sheet to the medical personnel.		
Skin contact	Remove contaminated clothing and rinse skin thoroughly with water. Get medical attention if any discomfort continues.		
Eye contact	Do not rub eye. Rinse immediately with plenty of water. Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 15 minutes. Get medical attention if irritation persists after washing. Show this Safety Data Sheet to the medical personnel.		
4.2. Most important symptoms	and effects, both acute and delayed		
General information	The severity of the symptoms described will vary dependent on the concentration and the length of exposure. Effects may be delayed. Keep affected person under observation.		
Inhalation	Irritation of nose, throat and airway.		
Ingestion	May cause discomfort if swallowed. May cause unconsciousness, blindness and possibly death. Central nervous system depression.		
Skin contact	Prolonged skin contact may cause redness and irritation.		
Eye contact	Irritation, burning, lachrymation, blurred vision after liquid splash.		
4.3. Indication of any immediate medical attention and special treatment needed			
Notes for the doctor	No specific recommendations. If in doubt, get medical attention promptly.		
SECTION 5: Firefighting meas	SECTION 5: Firefighting measures		
5.1. Extinguishing media			
Suitable extinguishing media	Extinguish with the following media: Foam, carbon dioxide or dry powder. Use fire- extinguishing media suitable for the surrounding fire.		
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.		
5.2. Special hazards arising fro	om the substance or mixture		
Specific hazards	No unusual fire or explosion hazards noted.		
Hazardous combustion products	Oxides of carbon. Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapours.		

5.3.	Advice	for	firefighters
0.0.	/ (01/100	101	mongritoro

5.3. Advice for firefighters	
Protective actions during firefighting	No specific firefighting precautions known.
Special protective equipment for firefighters	Leave danger zone immediately. Use protective equipment appropriate for surrounding materials.
SECTION 6: Accidental releas	e measures
6.1. Personal precautions, pro	tective equipment and emergency procedures
Personal precautions	Wear protective clothing as described in Section 8 of this safety data sheet. Avoid inhalation of spray mist and contact with skin and eyes. In case of spills, beware of slippery floors and surfaces.
6.2. Environmental precaution	<u>s</u>
Environmental precautions	Collect and dispose of spillage as indicated in Section 13. Avoid release to the environment. Avoid discharge into drains or watercourses or onto the ground.
6.3. Methods and material for	containment and cleaning up
Methods for cleaning up	Stop leak if possible without risk. Eliminate all sources of ignition. No smoking, sparks, flames or other sources of ignition near spillage. Provide adequate ventilation. Provide adequate ventilation. Contain spillage with sand, earth or other suitable non-combustible material. Avoid the spillage or runoff entering drains, sewers or watercourses. Absorb spillage with non-combustible, absorbent material.
6.4. Reference to other section	ns
Reference to other sections	Wear protective clothing as described in Section 8 of this safety data sheet. For waste disposal, see section 13.
SECTION 7: Handling and sto	rage
7.1. Precautions for safe hand	ling
Usage precautions	Read and follow manufacturer's recommendations. Keep away from heat, sparks and open flame. Wear suitable protective equipment for prolonged exposure and/or high concentrations of vapours, spray or mist. Good personal hygiene procedures should be implemented. Wash hands and any other contaminated areas of the body with soap and water before leaving the work site. Do not eat, drink or smoke when using the product. Avoid inhalation of vapours/spray and contact with skin and eyes. Avoid the formation of mists. Observe any occupational exposure limits for the product or ingredients. Avoid inhalation of vapours and spray/mists. Pregnant or breastfeeding women should not work with this product if there is any risk of exposure. Pregnant or breastfeeding women should not work with this product if

7.2. Conditions for safe storage, including any incompatibilities

Storage precautions Keep away from heat, sparks and open flame. Keep container tightly closed. Keep containers upright. Keep only in the original container. Avoid contact with oxidising agents.

## 7.3. Specific end use(s)

Specific end use(s)

The identified uses for this product are detailed in Section 1.2.

### SECTION 8: Exposure Controls/personal protection

#### 8.1. Control parameters

#### Occupational exposure limits

No exposure limits known for ingredient(s).

## DIETHYLENE GLYCOL

Long-term exposure limit (8-hour TWA): WEL 23 ppm 101 mg/m<sup>3</sup>

## 2-(2-METHOXYETHOXY)ETHANOL

Long-term exposure limit (8-hour TWA): WEL 10 ppm(Sk) 50.1 mg/m3(Sk)

### 2-(2-BUTOXYETHOXY)ETHANOL

Long-term exposure limit (8-hour TWA): WEL 10 ppm 67.5 mg/m<sup>3</sup> Short-term exposure limit (15-minute): WEL 15 ppm 101.2 mg/m<sup>3</sup> WEL = Workplace Exposure Limit

#### 8.2. Exposure controls

#### **Protective equipment**

Appropriate engineering controls	Avoid inhalation of vapours. Observe any occupational exposure limits for the product or ingredients. Provide adequate ventilation.
Eye/face protection	Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. Unless the assessment indicates a higher degree of protection is required, the following protection should be worn: Tight-fitting safety glasses.
Hand protection	It is recommended that gloves are made of the following material: Nitrile rubber. Chemical- resistant, impervious gloves complying with an approved standard should be worn if a risk assessment indicates skin contact is possible.
Other skin and body protection	Wear suitable protective clothing as protection against splashing or contamination.
Hygiene measures	Provide eyewash station. Wash contaminated clothing before reuse. Wash at the end of each work shift and before eating, smoking and using the toilet. Wash promptly if skin becomes contaminated. Promptly remove any clothing that becomes contaminated. When using do not eat, drink or smoke.
Respiratory protection	No specific recommendations. Respiratory protection must be used if the airborne contamination exceeds the recommended occupational exposure limit.

## SECTION 9: Physical and Chemical Properties

## 9.1. Information on basic physical and chemical properties

Appearance	Liquid.
Colour	Colourless. to Amber.
Odour	Mild.
Melting point	<-50°C
Initial boiling point and range	>260°C @
Flash point	>100°C
Evaporation rate	Not determined.
Upper/lower flammability or explosive limits	Not determined.
Vapour pressure	Not determined.
Vapour density	Not determined.

Solubility(ies)	Miscible with water. Miscible with the following materials: Ethanol.
Partition coefficient	Not determined.
Auto-ignition temperature	>300°C
Decomposition Temperature	Not determined.
Viscosity	5-10 cSt @ 20°C
9.2. Other information	
Other information	None.
SECTION 10: Stability and rea	activity
10.1. Reactivity	
Reactivity	The following materials may react with the product: Oxidising materials.
10.2. Chemical stability	
Stability	Stable at normal ambient temperatures and when used as recommended.
10.3. Possibility of hazardous	reactions
Possibility of hazardous reactions	Not determined.
10.4. Conditions to avoid	
Conditions to avoid	Avoid contact with the following materials: Oxidising materials.
10.5. Incompatible materials	
Materials to avoid	Strong oxidising agents.
Materials to avoid <u>10.6. Hazardous decomposition</u>	
10.6. Hazardous decomposition	Oxides of carbon. Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapours.
10.6. Hazardous decomposition Hazardous decomposition products	Oxides of carbon. Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapours.
10.6. Hazardous decomposition Hazardous decomposition products SECTION 11: Toxicological in	Oxides of carbon. Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapours.

Vapours may irritate throat/respiratory system. Symptoms following overexposure may include the following: Coughing.         May cause liver and/or renal damage. Irritating. Symptoms following overexposure may include the following: Stomach pain. Harmful: possible risk of irreversible
10.6. Hazardous decomposition         Hazardous decomposition         products         SECTION 11: Toxicological in         11.1. Information on toxicologi         Toxicological effects         Acute toxicity - oral         ATE oral (mg/kg)         Specific target organ toxicity -         Target organs         Inhalation         Ingestion	on products         Oxides of carbon. Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapours.         formation         cal effects         No information available.         5,000.0         single exposure         Central nervous system Heart and cardiovascular system Kidneys         Unlikely to be hazardous by inhalation because of the low vapour pressure of the product at ambient temperature. Vapours may irritate throat/respiratory system. Symptoms following overexposure may include the following: Coughing.         May cause liver and/or renal damage. Irritating. Symptoms following overexposure may include the following: Stomach pain. Harmful: possible risk of irreversible effects if swallowed.

Acute and chronic health hazards	May cause liver and/or renal damage. Possible risk of adverse reproductive effects. A single exposure may cause the following adverse effects: Central nervous system depression. May cause damage to the kidneys. May cause damage to the kidneys. Contains a substance/a group of substances which may damage fertility and the unborn child.
Route of entry	Ingestion.
Target organs	Central nervous system Heart & cardiovascular system Kidneys
Medical symptoms	Allergic rash. Delayed, often serious, breathing problems. Tachycardia (excessively rapid heart beat, including rapid and weak pulse). Unconsciousness, possibly death.
SECTION 12: Ecological Infor	mation
Ecotoxicity	The product components are not classified as environmentally hazardous. However, large or frequent spills may have hazardous effects on the environment.
12.1. Toxicity	
Acute toxicity - fish	LC₅₀, 96 hours: >100mg/l mg/l, Algae
Acute toxicity - aquatic invertebrates	Not available.
12.2. Persistence and degrada	ability
Persistence and degradability	The product is readily biodegradable.
12.3. Bioaccumulative potentia	
Bioaccumulative potential	The product is not bioaccumulating.
Partition coefficient	Not determined.
12.4. Mobility in soil	
Adsorption/desorption coefficient	Not available.
12.5. Results of PBT and vPvl	3 assessment
Results of PBT and vPvB assessment	This substance is not classified as PBT or vPvB according to current EU criteria.
12.6. Other adverse effects	
Other adverse effects	Not applicable.
SECTION 13: Disposal consid	lerations
13.1. Waste treatment method	ls
General information	Waste is classified as hazardous waste. Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority.
Disposal methods	Confirm disposal procedures with environmental engineer and local regulations.
SECTION 14: Transport inform	nation
General	The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, ADR/RID).
14.1. UN number	
Not applicable.	

## 14.2. UN proper shipping name

Not applicable.

#### 14.3. Transport hazard class(es)

No transport warning sign required.

### 14.4. Packing group

Not applicable.

#### 14.5. Environmental hazards

Environmentally hazardous substance/marine pollutant No.

#### 14.6. Special precautions for user

Not applicable.

#### 14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code

Transport in bulk according to Not applicable. Annex II of MARPOL 73/78 and the IBC Code

#### SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture
------------------------------------------------------------------------------------------------------

National regulations	EH40/2005 Workplace exposure limits.
EU legislation	Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) (as amended).

#### 15.2. Chemical safety assessment

SECTION 16: Other information

No chemical safety assessment has been carried out.

Revision comments	NOTE: Lines within the margin indicate significant changes from the previous revision.
Revision date	08/04/2016
Revision	4
Supersedes date	22/09/2014
SDS status	Approved.
Hazard statements in full	H302 Harmful if swallowed. H318 Causes serious eye damage. H319 Causes serious eye irritation. H361d Suspected of damaging the unborn child.
